This white paper in no way binds anyone to sign a contract or make a legally binding promise to contribute. This white paper also does not constitute any form or part of any opinion that can be considered as guidance, nor shall it be construed as a part of any impact that can be utilized in the formulation of a contract or an investment decision by Trillions.

ABSTRACT

Compliance with tax obligations:

Users of the website are entirely responsible for determining what, if any, taxes, if any, apply to their transactions. The Website's owners or authors are not responsible for determining which taxes apply to transactions.

Limitation of liability:

VTR coin shall not be held liable for any loss or harm resulting from the use of this website's material, including written material, links to third-party sites, data, quotations, charts, and buy/sell signals. Please be fully informed about the dangers and expenses of trading assets on the financial markets (digital or otherwise).

Investment risks:

Trading cryptocurrencies have a high level of risk and is not suited for all investors. You should carefully evaluate your investing goals, level of expertise, and risk appetite before opting to trade cryptocurrencies, tokens, or any other digital asset.

WHO WE ARE?

After a careful study on world economic dynamics, where more and more the gap is perceived Between wealth and poverty, we strongly believe that cryptocurrency can help that strip of population than more. It is affected by the loss of value of the Fiat and values between sensible beings. That's why we decided to launch this project, the VTR was born with a great ambition, we strongly believe to be able to bring well-being to those people to those companies to here territories all over the world who will believe in our project, We guarantee seriousness and security with our product precisely because we put the heart in making it. The VTR will not intervene directly in those disadvantaged areas with conspicuous donations, helping schools, hospital principals and socially useful centers. What we have done only for ourselves dies with us. What we have done for others and for the world remains and is immortal. Everyone has the same starting conditions, all tokens are in circulation, and no hidden gimmicks are used. We cannot call it fair because we raised the first funds in our pre-sales round, but we can call it fairer because we met all other conditions. VTR created with one goal in mind: to create the greatest decentralized technology available for individuals to earn bitcoin as a reward.

OUR OBJECTIVES

The major goal of the vtr coin fund is to provide long-term capital development while remaining fully invested in the crypto asset. VTR is meant to give investors with a better measure of risk-return than a pure market capitalization-weighted approach for medium- and long-term investors. Investors should anticipate moderately elevated levels of volatility and the possibility of exiting their investment.

Before trading cryptocurrencies, tokens, or any other digital asset, you should carefully consider your investment objectives, level of experience, and risk tolerance. Users will be able to trade their tokens at whatever price they wish. Wave is also in discussions with some security token exchanges to develop an official secondary market infrastructure to facilitate better trading.

We, as the promoters of the company idea, are a group of companies comprised of experienced entrepreneurs with extensive expertise and knowledge. We are a well-established firm with verticals in Hospitality, Travel & Tourism, Export, Trading, and International Fund Management and Banking.

VISION OF VTR

VTR is envisioned as a smart advancements ecosystem aiming at addressing the present issues connected with traditional crypto trading and transaction processing services, such as payment processing delays, fraudulent transactions, and high transaction prices. Further investigation into the smart technologies escrows ecosystems indicated that present financial systems benefit from technology, which can alleviate the fundamental issues.

Holding is employed as a less resource-intensive mining option. It comprises depositing funds in a cryptocurrency wallet to fund the protection and operation of a blockchain network. Simply explained, holding is the process of securing cryptocurrency in order to earn incentives. To optimize their benefits, investors can validate VTR and keep their tokens on the smart exchange. The longer investors stay on the exchange and invest in tokens, the greater their benefit. By holding and controlling their digital wealth, holders might gain incentives. The reward for holding is passive income for the beneficiary. To create an ecosystem where different solutions can emerge from a social perspective.

HOLDING OF VTR

It entails storing funds in a cryptocurrency wallet to finance a blockchain network's protection and operations. Holding, simply put, is the process of securing cryptocurrencies to obtain incentives. To maximize the rewards, investors can hold their cryptocurrency by validating global business coin and holding their tokens on the Smart exchange. The more the investors hold on to the exchange and invest in tokens, the more they will be rewarded.

- 70% of the VTR will be accumulated and invested in third party top DAOs in existence. Our intention is to make our project invest in bit DAOs which is the biggest DAOs in existence.
- Last but not least, VTR holders will have full commercial usage rights over their nfts, which can be held, sold or transferred at their own will.

Holders can earn incentives by holding and controlling their digital wealth. Passive income for the beneficiary is the reward of holding.

BENEFITS OF HOLDINGS

It is beneficial in cryptocurrencies since it creates benefits by holding the coin on any exchange and earning passive revenue. In a decentralized environment, holding a coin and staking the pool is the most convenient option. There is a lot of energy consumed and a lot of risk while staking than with any other crypto mining. VTR coin is here to help you:

Passive Income:

Stakeholders benefit from retaining and controlling their digital wealth. The incentive for staking is passive income for the beneficiary.

More Cost Effective:

Proof of stake blockchains are always low-cost and low-energy systems with no specific and costly hardware requirements. PoS, as opposed to proof of work chains, is more cost effective and environmentally benign. As a result, stakes can make more passive revenue by utilizing VTR coin's Smart Liquidity.

BENEFITS OF HOLDINGS

Scalability:

Scalability is a term that is frequently used in the Blockchain realm. It refers to the ability of a computational process to be employed or generated in a variety of ways. Proof of stake protocols enable more scalability, as demonstrated by VTR's bigger transaction outputs and cheaper costs.

Echo Friendlier:

Proof of stake blockchains are more environmentally friendly since they consume less electricity. As a result, they have a decreased carbon footprint and little to no environmental impact.

Highly Secured with the help of Smart Contract:

Security and privacy are the most important issues in today's society, and we give a quick and stable gateway that is guaranteed by the vtr contract, making him superior to others. VTR contract provides customers with a highly secure and quick environment for staking currency.

SUSTAINABILITY

The VTR fund employs a passive approach, with fund specifications and rebalancing policies meticulously chosen using data science methodologies. Based on market capitalization, the VTR token fund invests in superior, medium, and risky cryptographic assets, with weekly rebalancing. A maximum component weight of 5% is utilized to ensure that no single asset, and thus no single source of risk, dominates the portfolio.

A parallel currency is required to make life easier for users. This is exactly what the cryptocurrency concept is for. Cryptocurrency is required to be adopted in all parts of the world for this.

- Faster transfers.
- Little to no transaction costs.
- No limits on purchases and withdrawals.
- International transactions are faster.
- 24/7 access to money.
- Not governed by any central bank or monetary authority.
- Freedom for anyone to use

WHY DID I CHOOSE VTR COIN?

The efficiency of payment transactions:

Fees and exchange expenses are often associated with standard transfers and international purchases. Because there are no intermediary organizations or government involvement in SLT transactions, transaction costs are kept to a minimum. Furthermore, any transfer is completed immediately, removing the burden of customary authorization formalities and wait times.

Open for global participants:

VTR currency simplifies transactions and puts them closer to a larger audience. Another advantage of using our coin is that it is totally decentralized, allowing for unfettered cross-border trading. Technology will enable a financial revolution in which everyone will be more financially connected, empowered, and enabled. Because VTR has no borders, these can be utilized anywhere in the world. This has a significant impact on international payment fees.

WHY DID I CHOOSE VTR COIN?

Strong security:

Built and maintained to the greatest security standards to assure our users' and their cash' safety at all times. With its encrypted communication network, our currency offers private and secure proprietary technology applications (app), as well as decentralized exchange.

Fast and secure:

VTR is unique due to its potential security, privacy, transparency, blockchain technology, farming, lending, peer-to-peer trade, and NFTs marketplace. We built a platform to bring people together through our projects.

Free from corporate and government interference:

Our transactions have no intermediary institutions or government involvement, the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the Inconvenience of typical authorization.

VTR ADVANTAGES

Tokenization can offer benefits over today's analog approach to debt and equity raising. Our team has previously achieved success; our goal here is to go far further. The VTR is as adaptable as it is powerful, and it will serve as the foundation for a variety of future revolution goods, services, and projects. Each will revolutionize a distinct aspect of cryptocurrency. To help maintain the token's price floor, the protocol will leverage Defi 3.0 Multichain Farming to build the Treasury exponentially at a pace of 50% or more every year. Rug-Proof: There is no minter code, but it will be audited soon.

Because to smart contract improvements, vtr will be able to provide some of the highest APY in the DeFi industry, beating competitors. We will be the first Automatic Staking Token with a Treasury backed by a Master Node, ensuring revenue support for the VTR Community. Simple and secure - When you buy vtr currency, we automatically stake it in your wallet. There is no need to transfer your tokens to our website. You are staked and prepared to get rebase incentives the moment you buy. We will become the most user-friendly auto-staking protocol in DeFi.

BENEFITS OF HAVING VTR

VTR coin will construct a large number of business portfolios while also providing similar benefits to enterprises all over the world. This would assist contributions, businesses, households, traders, and ecommerce platforms in effortlessly transitioning their existing models to a crypto-based environment, improving earnings and streamlining business operations.

Global Acceptancy:

Cryptocurrencies are a borderless method of trade that enable rapid and cost-effective global transactions. There is no waiting, no foreign fees, and no restrictions on who may or cannot send money to whom, or when and where that money can be accessed.

Blockchain Technology:

Blockchain is a distributed ledger technology (DLT) for recordkeeping of cryptocurrency transactions. It is also a database to achieve independent verification of the chain of ownership of any and every amount.

BENEFITS OF HAVING VTR

Instant Operations:

It is, after all, the most effective method for ultra-fast contactless international transactions. As previously said, it is built on the binance smart chain. As a result, all transactions are completed in less than 15 seconds. As a result, VTR is quickly becoming the greatest cryptocurrency to invest in.

Low Transaction Fees:

The majority of individuals are in pain. However, the use of vtr alleviates this pain. This implies that VTR is the best cryptocurrency to invest in. Its customers do not have to worry about high transaction fees or chargebacks.

Easy Accessibility:

It is straightforward and convenient to pay with cryptocurrencies. Digital payments via cellphones rather than credit cards are quite convenient. This is where the global business coin shines as the finest cryptocurrency to buy. That is, you can use VTR to pay for anything.

LEGACY OF VTR

It is a blockchain-based asset that provides functionality similar to Defi. This is why vtr coin is a great cryptocurrency to invest in. VTR is a multi-utility decentralized token that may be used in practically any business. The following are included, but not limited to, the list:

- Finance
- e-commerce
- Restaurants
- Real-estates
- Shopping
- Forex Trading
- Hotels
- Flights booking
- Recharge
- Transportations
- Homes
- Boats
- Clothing
- Health and pet products
- Wine
- Condos
- Cars & much more.

VTR STAKING

The company's current platform uses Secure Pocket and a double-checking method to hold all staked VTR tokens. As more people, including institutional investors, recognize the lucrateness of the crypto market, crypto staking is quickly becoming a trend of earning passive income by simply holding or locking funds in a wallet, though you cannot earn passive income by buying and selling this token until it is fully listed.

Auto-staking Protocol :

- Automatic Staking and Compounding Straight to Your Wallet!
- Get Rewards Every 30 Minutes / 48 Times Daily!
- Highest Fixed APY's - Means More Money Generated For You!
- A portion of the buy and sell fees will be used for marketing purposes to ensure growth within the Revolt Community
- Compounds automatically with a treasury-backed currency with intrinsic value

TOKENOMICS

TOTAL SUPPLY 200,000,000,000

LIQUIDITY 50%

EXCHANGE 30%

MARKETING 10%

DONATIONS 10%

TOKEN DETAILS

Token Name	VTRCOIN
Symbol	VTR
Network	etherscan
Decimal	18
Total Supply	200,000,000,000
Max Supply	200,000,000,000

ROAD MAP

Phase 1

- create token
- launch project
- whitepaper
- List Etherscan
- Smart Contract Audits
- Events Campaigns

Phase 2

- Coinmarket Listing
- Exchange Listing
- Major CEX listings
- Media Platforms
- Marketing
- Other Decentralized

Phase 3

- Advertisement on all Social Media Platform
- updated Smart Contract Audits
- Extra Marketing
- Charity donations
- Burning 5% of the total when reaching a capital of €100.000
